ANNUAL REPORT  
OF THE  
ALBERTA HOSPITALIZATION BENEFITS PLAN  
1969

February, 1971

To HIS HONOUR, GRANT MacEWAN,  
Lieutenant Governor of the Province of Alberta.

SIR:

I have the honour to transmit herewith the Annual Report of the Hospital Services Section of the Department of Health for the year 1969.

I have the honour to be, Sir,

Your obedient Servant,

J. D. HENDERSON,  
Minister of Health.

February, 1971

TO THE HONOURABLE J. D. HENDERSON,  
Minister of Health,  
Legislative Building, Edmonton, Alberta.

SIR:

I have the honour to submit herewith the Annual Report of the Hospital Services Section of the Department of Health for the year 1969.

I have the honour to be, Sir,

Your obedient Servant,  
P. B. ROSE, M.D.  
(Acting) Deputy Minister  
Hospital Services Section

## INTRODUCTION

This report covers the calendar year 1969, which is the eleventh complete year of operation of the Alberta Hospitalization Benefits Plan. The report covers administration of the Hospital Services Section's responsibility under The Alberta Hospitals Act, financial and other aspects of the operation of the Alberta Hospitalization Benefits Plan and certain aspects of the operations of the hospital. The Hospital Services Section is also responsible for the administration of The Nursing Homes Act, but this is covered under a separate report entitled, Annual Report of the Alberta Nursing Home Plan.

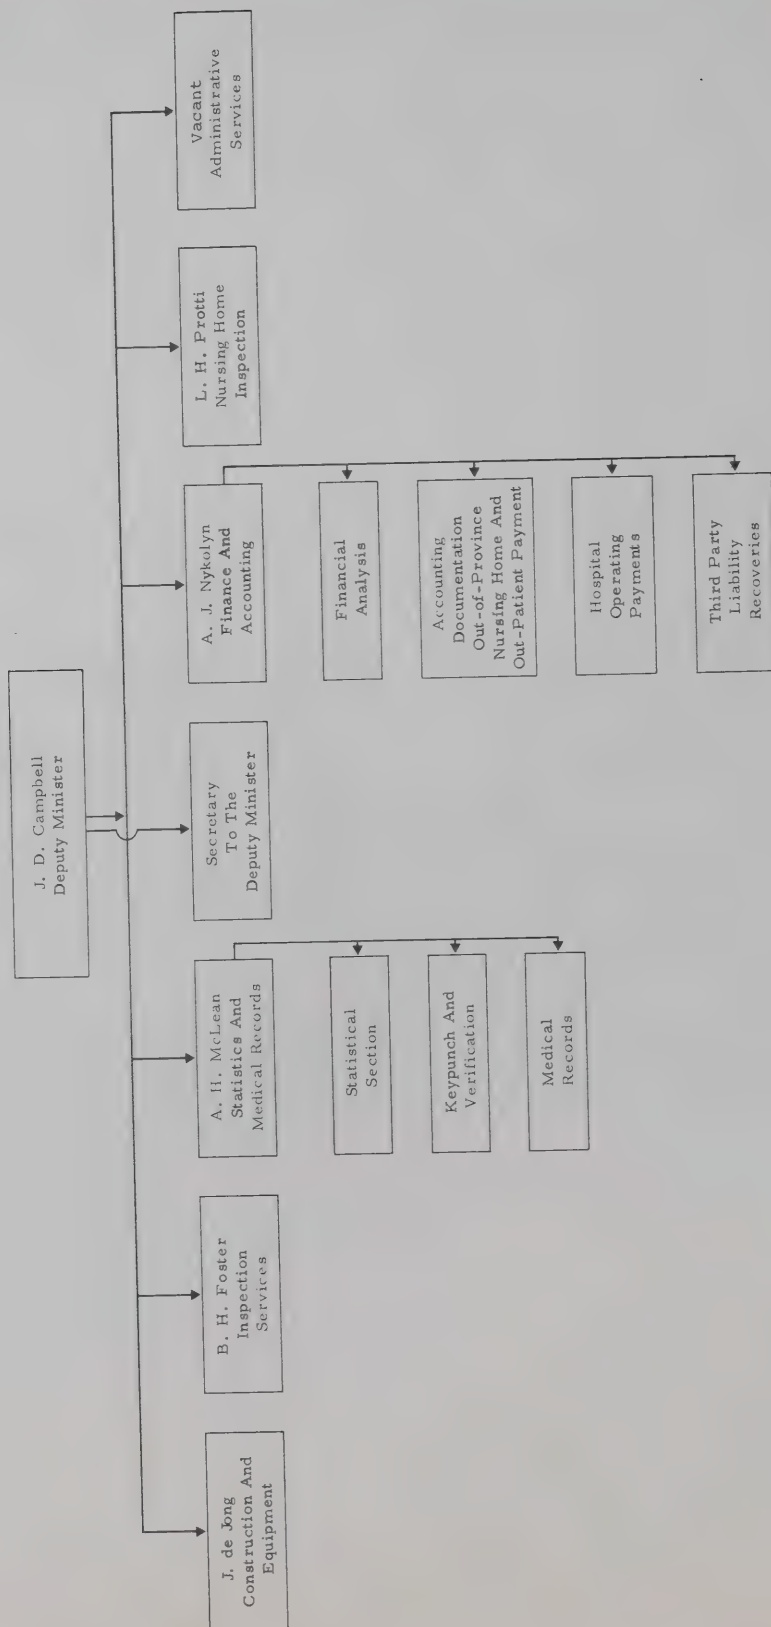

The Hospital Services Section representing the administrative arm of government in the provision of hospitalization within the province cannot help but indicate its appreciation of all those persons whose efforts are reflected in the results portrayed in this report. This applies not only in the provision of improved patient care but also in enabling the work necessary in the effective utilization of available funds to be carried out with a minimum degree of difficulty.

The Hospital Services Section wishes to express its appreciation of the cooperation which has been extended to it by the Executive Committee of government through the Minister of Health. This cooperation has played an important part in the establishment and development of the Alberta Hospitalization Benefits Plan and in its administrations.

## I. ADMINISTRATIVE RESPONSIBILITY

The Hospital Services Section of the Department of Health is responsible for the financial administration of public funds through the Alberta Hospitalization Benefits Plan. An agreement between the Federal and Provincial governments exists whereby both share in the costs of hospital services. Table 2 indicates the sharing of the financial burden for hospital services.

To facilitate the detailed financial administration, Hospital Services Section has developed working arrangements with hospitals in the province. Mr. A. J. Nykolyn, Comptroller, headed the financial division of the Hospital Services Section. During the year, three financial analysts were added to the staff complement of this division in order that a more detailed examination of expenditures, cost studies, and studies to determine financial requirements and overall financial planning for hospitals might be carried out.

Mr. B. H. Foster, Chief Inspector of Hospitals, headed the inspection and field services division of Hospital Services Section. The activities of this division form a direct link for communication between hospitals and Hospital Services Section. The primary purpose of inspection and field services is to assist rather than direct hospital administration. Certain direct consultation services to hospitals have been delegated to the Alberta Hospital Association, and although this has been done, the Hospital Services Section has not abrogated completely the aspects of consultation with hospitals operating under the Alberta Hospitalization Benefits Plan. The activities of the Hospital Services Section in the area of provision of buildings, extension to buildings, equipment and major renovations were administered by Mr. Ing Jac de Jong, C.I., B.Arch. He was assisted by internal committees in the construction area and the equipment area whose function primarily was to assure uniformity of treatment among hospitals and the development of acceptable yardsticks.

Mr. A. H. McLean, has been allocated the responsibility for the research and development activities of the Hospital Services Section in areas other than financial. The area has been involved mainly in gathering and assembling hospital and health services statistics in usable form and in compiling statistical reports relative to the utilization and activities of hospitals in the province.

The late, Mr. D. A. Richardson, B.A., was in charge of the general office routine, together with inter-relationship between Hospital Services Section and other areas of government. He acted as secretary for liaison committees with other organizations.

The liaison committees of Hospital Services Section, with the College of Physicians and Surgeons of Alberta, the Alberta Hospital Association and the Alberta Association of Registered Nurses were again active throughout the year and the deliberations of these committees in no small way aided materially in the solution of many of the problems which arose from time to time during the year.

### Cost of Administration

Table 1 presents the details of the administrative costs for Hospital Services Section for the fiscal year ending March 31, 1969. The cost of administration

TABLE 1:  
HOSPITAL SERVICES SECTION - ADMINISTRATION EXPENSES  
FOR THE FISCAL YEAR ENDED 31 MARCH, 1970

Salaries	\$37,665,320
Administrative Materials And Supplies	1,934,110
Rentals	767,382
Postage	431,993
Furnishings And Equipment	106,731
Repair And Maintenance Of Furnishings And Equipment	108,956
Telephone And Telegraph	103,860
Travel	1,098,509
Miscellaneous	17,858
<b>TOTAL</b>	<b>\$42,234,719</b>

Note: Cost of administration per resident covered under the Alberta Hospitalization Benefits Plan is \$ .27.

in relation to expenditures made by the Hospital Services Section is considerably lower than the corresponding cost of administration of other provinces. In relation to the total cost of the plan, the cost of administration has been decreasing while the services provided under the plan have been increasing. Nevertheless continued attention has been directed to more effective control over the expenditures made in the areas involved under the responsibility of the Hospital Services Section.

## II. CHANGES IN THE PLAN 1969

A major development affecting Hospital Services Section that will ultimately have a profound impact on hospitals and health care in Alberta was the establishment of The University of Alberta Health Sciences Co-ordinating Authority. The function of this body is to provide for the orderly development of the University of Alberta Health Sciences Centre and will be concerned with projects that are built and maintained by the University of Alberta or the University of Alberta Hospital and which are an integral part of the University Health Sciences Centre. It will also deal with related problems which are referred to the co-ordinating authority by the Government of Alberta, the University of Alberta or the University of Alberta Hospital Board. A University of Alberta Health Services Planning and Development Committee was established to assist in this function.

The outpatient benefits provided by the plan were extended to include hospital out-patient services obtained by Alberta residents while outside of Alberta. Benefits were also extended to include the payment of co-insurance charges in respect to out-patient services provided to persons whose services were authorized by the Cancer Clinic, the Arthritis Clinic or who were suffering the effects of poliomyelitis or who obtained the services at a multiple handicapped children's unit.

On July 1, 1969, the Alberta Hospitalization Benefits Plan again became responsible for the payment of co-insurance charges in respect to hospital in-patient and out-patient services for pensioners and persons on social allowance. For the two preceding years, the responsibility for these payments had resided with the Alberta Health Care Plan.

The regulations governing the plan were amended to permit the province to make payments to any voluntary hospital under assigned agreement covering the equity of the owner's existing at 1st January 1959 plus or minus any adjustments since that date,

together with accumulated interest at a rate of three per cent from 1st January 1959. This permitted reasonable compensation to the owners of voluntary hospitals who desired to withdraw from the field and turn their hospital over to some other authority, and in addition made provisions for protection of the owner's equity from the full effects of erosion through inflation.

The drug purchasing project instituted in 1967 in conjunction with the Joint Pharmacy and Therapeutic Committee of the College of Physicians and Surgeons of Alberta and the Alberta Hospital Association continued. The first tender covering certain commonly used drugs in hospitals was let on March 1, 1969. The indications are that through the joint tendering, hospitals would be able to realize a saving in the cost of drugs.

### III. FINANCING

#### A. General

In the Province of Alberta the Provincial Government, in partnership with the Federal Government, the Municipal Government and the resident, has accepted the financial responsibility for the provision of standard ward hospital care to persons eligible as residents for hospital care. This service involves both in-patient hospital care, within and outside of the provincial boundaries, and out-patient care within the provincial boundaries.

Within the Province the most significant sources of care are provided by hospitals owned and operated by municipalities, voluntary organizations and provincially-owned hospitals. In these institutions the costs of standard ward care are met by the hospitalization plan on a net cost incurred basis. Alternative sources of care are provided on a contract basis provided by Federal and other Contract hospitals within the Province. Payment in these latter facilities is made on a patient day basis.

In the case of out-patient services incurred within the Province, these are supplied not only by the hospitals but also by private clinics and in doctors' offices. Payments in regard to the out-patient services incurred in the hospitals and in certain approved clinics are shared with the Federal Government whereas the balance of the payments made are met by the Provincial Government.

Where certain services are provided by the hospitals over and above the level of standard ward

care the resident is assessed for the additional cost. In the case of private and semi-private accommodation certain limits have been set by the regulations and are tied in to the approximate cost of the services involved.

The Provincial Government has accepted the basic financial responsibility of the capital costs for buildings and equipment. Outright payments are made for equipment and are shared with the Federal Government under a joint hospitalization agreement. The balance of the costs have been accepted by the Provincial Government through the process of repayment of debentures and debenture interest which are utilized at the time of construction in financing the projects. Capital costs incurred in construction range in the vicinity from \$13,000 to \$20,000 per bed.

The operational costs involved in providing standard ward care to the residents of the Province of Alberta are closely allied to the unit of services represented by patient days. At the present level of costs the yearly operating costs run in the vicinity of \$9,000 per bed.

These factors serve to indicate the importance in the control of costs of exercising care as to the approval of new beds. At the present time beds previously approved are coming into operation and are creating a built-in increase in operating costs.

The examination of the operational costs has been made as to:

- (1) the impost borne by the various partners taking part in the financing of the cost increases,
- (2) the operational areas involved in the increase in costs, and
- (3) the total cost per capita of hospitalization to the residents of the Province of Alberta.

#### B. Total Cost of Hospitalization

Table 3 presents the total cost of hospitalization as shared by the different participants. It represents the combined total of Tables 2 and 7. Table 3 differs from 2 in that the owners share includes both the municipal hospital boards and the voluntary hospital owners' share. The owners' responsibility represents the costs which are left with the hospitals, made up of costs incurred in the operation of the hospitals in excess of the ceiling amounts established as representing the Provincial Government's financial responsibility, and interest on loans not accepted by the Provincial Government.

TABLE 2:

#### SHARING OF THE COSTS OF THE PLAN

	1967		1968		1969	
	\$	%	\$	%	\$	%
Patients' Share	\$ 7,751,318	6.6	\$ 9,286,686	6.8	\$ 10,135,493	6.7

<b>Per Capita Costs Not Under Federal- Provincial Sharing Agreement</b>	<b>\$21.57</b>	<b>\$27.05</b>	<b>\$22.07</b>	<b>\$ 22.85</b>

TABLE 5:

ANALYSIS OF THE INCREASE IN TOTAL HOSPITALIZATION COSTS  
IN 1969 OVER THE COSTS INCURRED IN 1968 ON THE  
BASIS OF THE PARTNERS INVOLVED

	Amount	%
<b>A. PATIENTS' SHARE OF 1969 COST INCREASES</b>	\$ 2,477,848	12.8
1. Co-insurance volume increased	\$ 848,807	
2. Increase in service not covered by Plan	91,606	
3. Increase in contribution by non-eligible patients	1,537,435	
<b>TOTAL</b>	<b>2,477,848</b>	
<b>B. OWNERS' SHARE OF 1969 COST INCREASES</b>	\$ 3,986,505	20.6
1. Increase in equalization assessment resulting in an increased contribution by rate payers applying the four mill levy	\$1,048,646	
2. Increase in excess and unapproved costs and site ownership and preparation	\$2,937,857	
<b>TOTAL</b>	<b>\$3,986,505</b>	
<b>C. PROVINCIAL SHARE OF 1969 COST INCREASES</b>	\$ 3,979,851	20.6
1. Services Not Covered Under Federal-Provincial Cost Sharing Agreement:		
(a) Co-insurance and bad debt costs decreased in providing benefits to pensioners and holders of medical cards or people unable to pay hospital accounts	\$ (251,778)	
(b) Costs decreased for out-patient services in facilities not included in Agreement	(3,464,721)	
(c) Capital cost increases which are not shareable in Agreement	344,762	
(d) Construction grants	900,153	
(e) Excess and unapproved costs and site ownership and preparation re provincially-owned hospitals	754,921	
2. Services Covered Under Federal-Provincial Cost Sharing Agreement:		
(a) Cost increase related to in-patient care	5,401,178	
(b) Cost increase related to out-patient care	295,336	
<b>TOTAL</b>	<b>\$3,979,851</b>	
<b>D. FEDERAL SHARE OF 1969 COST INCREASES</b>	\$ 8,871,998	46.0
1. Services Not Covered Under Federal-Provincial Agreement:		
(a) Cost increase related to special research in hospitals	\$ 44,072	
(b) Decrease in grants towards hospital construction	(1,486,500)	
2. Services Covered Under Federal-Provincial Agreement:		
(a) Cost increase related to hospital in-patient care	8,132,880	
(b) Cost increase related to hospital out-patient care	2,181,546	
<b>TOTAL</b>	<b>\$8,871,998</b>	
<b>TOTAL 1969 COST INCREASE BORN BY ALL PARTICIPANTS</b>	<b>\$19,316,202</b>	<b>100.0</b>

Table 5 represents an analysis of how the increase in total cost of hospitalization is shared by the participants.

Table 6 presents an analysis of the operational and construction areas involved in this increase in cost of hospitalization. The largest increase was in cost of salaries for personnel and supplies, an 8.5 per cent increase over 1968. Total costs rose only 13.0 per cent in 1969 as against a rise of 11.2 per cent in 1968.

**C. Hospital Construction**

During the year 1969 there were 12 major construction projects in progress or completed. Some 1,179 beds were to result in the form of new beds and replacements. The provincial responsibility amounted to approximately \$27,100,000. The projects ranged from \$196,316 for the Fort McMurray General Hospital addition to the Edmonton Misericordia's \$16,743,822 for a new 550 bed hospital.

As of December 31, 1969, the number of beds per one thousand population stood at 8.5 active treatment plus auxiliary hospitals under the Alberta Hospitalization Benefits Plan; this had been 8.2 at January 1, 1969. For December 31, 1968, federal statistics listed Canada as having 6.9 beds per thousand population including public, private and federal hospitals. On this basis of comparison Alberta had 9.2 beds.

TABLE 6

ANALYSIS OF 1969 OPERATIONAL COST INCREASES  
OVER 1968 OPERATIONAL COST INCREASES

Total Cost of Hospitalization - 1969	\$167,711,916		
Total Cost of Hospitalization - 1968	\$148,395,714		
Increase in Costs - 1969	\$ 19,316,202		
1969 Increase Due To:		% of Total Increase	% Increase Over 1968
1. Additional beds brought into service accounted for an additional 365 rated beds during 1969 and gave rise to an estimated cost of	\$ 4,694,373	24.3	3.1
2. Price Level:			
Increasing costs attributable to salaries, wages, supplies, etc., during the year in the active treatment and auxiliary hospitals	12,418,868	64.3	8.5
3. Construction costs paid outright covering new construction and renovations decreased during the year	(586,347)	( 3.0)	(0.4)
4. Out-patient services volume provided during the year increased	2,596,495	13.4	1.7
5. Contract hospitalization services purchased increased - Within the Province \$ 26,802 Outside the Province 166,011	192,813	1.0	0.1
<b>TOTAL</b>	<b>\$19,316,202</b>	<b>100.0%</b>	<b>13.0%</b>

TABLE 7:  
OTHER HOSPITALIZATION COSTS

	1968	1969
1. Patient's Responsibility:		
(a) Patients Not Eligible for Benefits:		
Non-residents	\$ 1,492,929	\$ 2,415,018
Patients covered by Workmen's Compensation Act	1,397,115	1,945,108
Patients covered by Federal legislation	281,466	413,825
Hospitalization, the cost of which was recovered through claims for damage	343,068	317,836
Out-patient services, non-eligible	928,986	889,152
TOTAL	\$ 4,443,564	\$ 5,980,999
(b) Services Not Covered by the Plan:		
Preferred accommodation	\$ 3,079,311	\$ 3,170,580
Other excluded services	30,249	30,586
TOTAL	\$ 3,109,560	\$ 3,201,166
TOTAL OF (a) AND (b)	\$ 7,553,124	\$ 9,182,165
2. Hospital Owners' Responsibility	\$ 1,545,619	\$ 4,485,236
3. Responsibility Assumed by the Provincial Government:		
Construction grants	\$ 138,583	\$ 1,038,736
Excess and unapproved costs	64,758	819,679
TOTAL	\$ 203,341	\$ 1,858,415
4. Responsibility Assumed by the Federal Government:		
Construction grants	\$ 1,486,500	\$
Special research projects at University of Alberta Hospital	166,411	\$ 210,483
TOTAL	\$ 1,652,911	\$ 210,483
TOTAL OF ITEMS 1, 2, 3 and 4	\$10,354,607	\$15,736,301

Additional projects for approved hospitals in the province which did not result in bed increases include 57 extraordinary maintenance items totalling \$192,691 and 13 outright payments for \$289,307.

#### IV. FINANCIAL ANALYSIS

##### SOURCE AND APPLICATION OF FUNDS

##### A. General

The financial responsibility for hospital operation and construction has been accepted by the Provincial Government within the limits established by reasonableness. This leaves the owners with a residual financial responsibility covering the provision of necessary working capital, the provision of the site and the covering of all costs incurred by the hospital in operation and construction which are not considered reasonable.

As hospital operations are carried on under different types of ownership, the analysis is segregated by type of ownership as follows: (a) municipal owners, (b) voluntary owners, and (c) provincial government. The financial analysis for 1969 is directed towards a determination of the extent of the owners' responsibility. Tables 10 and 11 provide the analysis.

##### B. Total Hospitalization Covered Under The Alberta Hospitalization Benefits Plan

A financial analysis was made of the flow of funds for the calendar year of 1969 from the audited

TABLE 8: NEW HOSPITAL CONSTRUCTION COMPLETED DURING THE CALENDAR YEAR 1969

	Total Capacity of all Hospitals		Construction Completed				Total Capacity of all Hospitals		Nurses' or Interns'

\*\* Henwood was not constructed with Hospital Services funds, and was in operation effective 27 June, 1969.

financial statements of all hospitals, other than contract hospitals, situated in Alberta. The information is presented in Table 11 to highlight the owners' responsibility.

The analysis of long-term capital expenditures indicated continued expenditure on capital assets. During the year the cost of buildings increased by \$12,527,996. The major portion of the expanded facilities was financed by debenture issues of \$8,179,567 and construction grants in the amount of \$1,038,736.

## C. Municipal Hospitals

### 1. Approved General Hospitals

The analysis of 82 municipally-owned general hospitals indicates the impact of a decrease in the number of construction projects financed in 1969 in this area. The increase in expenditure on buildings exceeded the increase in debentures issued and construction grants by the Province for 1969.

Municipal requisitions in 1969 were \$1,866,507 as compared with \$2,389,932 in 1968 and \$2,209,438 in 1967.

### 2. Approved Auxiliary Hospitals

The financial analysis of 20 municipally-owned auxiliary hospitals for 1969 indicated that the proceeds of debentures in 1968 was used for construction purposes in 1969, with a corresponding decrease in cash and investments.

## D. Voluntary Hospitals

### 1. Approved General Hospitals Operated by Catholic Orders (Table 17)

A financial analysis of 28 active treatment hospitals owned by Catholic Orders indicated a decrease of owners' direct contributions of \$4,722 over 1968. Owners' responsibility increased by \$83,578. The difference was offset by a decrease of \$78,856 in income from interest and donations, collections of prior-to-plan accounts and ancillary operations. Expenditures on capital assets decreased by \$8,039,931 between 1968 and 1969.

### 2. Approved General Hospitals Operated by Voluntary Groups Other Than Catholic Orders (Table 18)

The financial analysis of five active treatment hospitals operated by voluntary groups other than Catholic Orders indicates a withdrawal of funds by the owners of \$1,195,621 in 1969 compared with \$139,383 contributed by the owners in 1968, but in the same period the owners' responsibility decreased by \$1,342,276. The difference was offset by a decrease of \$7,272 in miscellaneous other income.

Similar to the voluntary hospitals operated by Catholic Orders, the amount of expenditures on capital assets decreased by \$128,005.

### 3. Approved Auxiliary Hospitals (Table 19)

The financial analysis of the six auxiliary hospitals in the voluntary group indicates that the owners contributed \$27,596 more in 1969 than 1968 to the hospitals.

## E. Provincially-Owned General Hospitals

### Approved General Hospitals

Four Hospitals are included in this analysis.

## F. Financial Equity in Alberta Hospitals Under The Alberta Hospitalization Benefits Plan, Excluding Contract Hospitals

TABLE 12:  
FINANCIAL EQUITY IN ALBERTA HOSPITALS OPERATING  
UNDER THE ALBERTA HOSPITALIZATION BENEFITS PLAN  
EXCLUDING CONTRACT HOSPITALS AS AT 31 DECEMBER, 1969

	Provincial Government		Owners Other Than Provincial Government		Total	
	Equity	Per Cent	Equity	Per Cent	Equity	Per Cent
Municipalities	\$29,582	53	\$26,279	47	\$ 55,861	100
Voluntary Groups	15,219	41	22,076	59	37,295	100
Provincial Government	35,085	97	1,005	3	36,090	100
<b>TOTAL</b>	<b>\$79,886</b>	<b>62%</b>	<b>\$49,360</b>	<b>38%</b>	<b>\$129,246</b>	<b>100%</b>

Table 12 illustrates the financial equity of active treatment and auxiliary hospitals operating under the Alberta Hospitalization Benefits Plan. In the above table the depreciation of assets, whether purchased by provincial funds or municipal and voluntary funds, are applied to reduce the provincial equity. Generally, the owners' equity ratio has been declining in previous years while the Provincial Government's equity has been increasing correspondingly.

In the voluntary group of hospitals the Provincial Government's share of total equity is the smallest.

## G. Outstanding Debt Of Approved General And Auxiliary Hospitals

The Provincial Government assumed responsibility for the repayment of the principal and interest on the capital debt of all approved hospitals on an annual basis.

Outstanding capital debt of approved general and auxiliary hospitals as at 31 December, 1969, amounted to \$108,006,000. This is a net increase of \$69,460,000 (or 64.3 per cent) over the amount outstanding on 1 January, 1959, and a net increase of \$6,760,000 (or 6.7 per cent) over 1968.

The financing of construction of new hospitals and renovations to existing property is facilitated primarily by debenture borrowing. Other sources of financing are grants and outright payments received by hospitals for this purpose. During the preceding eleven year period, debentures in the amount of \$4,789,000 were issued.

The annual repayment of debentures during the calendar year amounted to \$4,789,000, which left a net increase in debt applicable to the calendar year 1968 of \$6,760,000. The major portion of debenture financing was carried out through the Alberta Municipal Financing Corporation.

## V. INDICES

The indices program which was introduced in 1965, to provide hospital boards and administrators with information on cost and utilization trends within their hospitals as compared to other hospitals of comparable size was continued in 1969. Minor changes

## VI. HOSPITALS OPERATING UNDER THE PLAN

A summary of the different types of institutions under the Plan as at 31 December, 1969, the number of beds and days of patient care, by responsibility for payment is given in Tables 22 and 23. The diagram following the tables presents in graphic form the number of beds in the various classes of hospitals and the number available to each of the principal classifications. The shaded portion shows the average number of beds being occupied out of those available and indicates the utilization of the beds available in the various classifications. Table 23 indicates that in 1969 there were 9.1 beds per 1,000 population available in Alberta. This is the highest rate in Canada and considerably above the 1969 national average of 6.9 beds per 1,000 population.\* If Alberta's nursing home beds were included in this ratio, the ratio would be increased to 12.2 beds per 1,000 population.

TABLE 22: DISTRIBUTION OF ADULT AND CHILD PATIENT DAYS BY RESPONSIBILITY FOR PAYMENT AND TYPE OF HOSPITAL IN 1969 (excluding out-of-province hospitalization)

RESPONSIBILITY FOR PAYMENT	ALL HOSPITALS	GENERAL HOSPITALS**	LONG TERM CARE HOSPITALS	FEDERAL HOSPITALS
(a) NUMBER OF DAYS				
Provincial Plan	3,689,418	2,675,063	868,637	145,718
Federal Government	62,837	11,677	132	51,028
Workmen's Compensation Boards	62,128	50,588	10,349	1,091
Non-Residents	99,625	68,328	6,348	24,949
Residents Non-Active Treatment	10,823	-	-	10,823
TOTAL	3,924,831	2,805,756	885,466	233,609
(b) PERCENTAGE DISTRIBUTION BY PAYMENT RESPONSIBILITY				
Provincial Plan	94.0	95.4	98.1	62.4
Federal Government	1.6	0.4	-	21.8
Workmen's Compensation Boards	1.6	1.8	1.2	0.5
Non-Residents	2.5	2.4	0.7	10.7

Provincial Plan	100.0	72.5	23.5	4.0
Federal Government	100.0	18.6	0.2	81.2
Workmen's Compensation Boards	100.0	81.6	16.7	1.7
Non-Residents	100.0	68.6	6.4	25.0
Residents Non-Active Treatment	100.0	-	-	100.0
TOTAL	100.0	71.5	22.6	5.9

\* Less Than .05%

\*\* Statistics For General Hospitals Includes Two Contract Hospitals.

From Table 22 we can calculate the ratio of patient days of hospitalization per 1,000 in 1969. This ratio is 2,514.3. In 1969 the national average was 2,032.8 patient days of hospitalization per 1,000 population.\* There was a net increase of 15.5 per cent in patient days of hospitalization over 1968.

The percentage occupancy of Alberta hospitals is calculated as 77.9 per cent. The national percentage occupancy is 80.4 per cent.\* This lower than average occupancy can be attributed to the high rate of beds per 1,000 population, even though there is also a high rate of patient days of care per 1,000 population in Alberta hospitals. The percentage occupancy in Alberta hospitals ranged from a low of 34.2 per cent to a high of 93.3 per cent. Data concerning individual hospitals are given in Table 45.

\* The Dominion Bureau of Statistics (Hospital Statistics — Preliminary Annual Report, 1969).

## VII. PAYMENTS MADE BY HOSPITAL SERVICES SECTION

Table 24 presents details of expenditures made by Hospital Services for 1965 through 1969. Payments increased by \$14,553,469 over 1968 payments or an increase of 11.36 per cent. The majority of this increase was in basic payments to general and auxiliary hospitals for in-patient services. This table does not include the non-plan payments made by the Province — see Table 7 for this information.

## VIII. PAYMENTS OF CO-INSURANCE CHARGES BY HOSPITAL SERVICES SECTION FOR SPECIAL CLASSES OF PATIENTS

Under the Alberta Hospitalization Benefits Plan the co-insurance charges were paid for certain types of patients. Table 24 indicates the total amounts paid for each type of patient. Table 25 indicates the number and percentage distribution for each group for which co-insurance charges were paid during the year 1969.

TABLE 23: DISTRIBUTION OF HOSPITALS IN ALBERTA RECEIVING PAYMENT UNDER THE HOSPITALIZATION BENEFITS PLAN, BY TYPE OF HOSPITAL, THEIR RATED CAPACITY AT 31 DECEMBER, 1969, AND VOLUME OF IN-PATIENT CARE GIVEN IN 1969

TYPE OF HOSPITALS	Number Of Hospitals	RATED CAPACITY		DAYS OF CARE		ADMISSIONS		Beds Per 1,000 Population
		Adult & Child Beds	Newborn Bassinets	Adults & Children	Newborn	Adults & Children	Newborn	
(a) Number								
*General Hospitals	118	10,567	1,719	2,805,682	219,821	315,050	30,177	6.8
Auxiliary Hospitals	27	2,271	-	767,343	-	2,868	-	1.4
**Other Long Term Care Hospitals	2	470	-	118,123	-	2,767	-	0.3
Federal Hospitals	8	918	49	233,609	3,248	9,285	484	0.6
TOTAL	155	14,226	1,768	3,924,757	223,069	329,970	30,661	9.1
(b) Percentage Distribution								
*General Hospitals	76.1	74.3	97.2	71.5	98.5	95.5	98.4	-
Auxiliary Hospitals	17.4	16.0	-	19.6	-	0.9	-	-
**Other Long Term Care Hospitals	1.3	3.3	-	3.0	-	0.8	-	-
Federal Hospitals	5.2	6.4	2.8	5.9	1.5	2.8	1.6	-
TOTAL	100.0	100.0	100.0	100.0	100.0	100.0	100.0	-

\* The 'General Hospitals' Categories Also Include The Two Contract Hospitals.

\*\* In 1968 The Glenrose Provincial General Hospital Was Included With 'General Hospitals'.

Table 25 does not include patient days for which hospitals are unable to collect co-insurance charges or those days for which the Province paid Bad Debt claims.

During 1969, 35,173 or 56.1 per cent of the total number of co-insurance days paid were for special service recipients classed as cancer patients. Patients that were multiple handicapped had co-insurance days paid of 18,868 or 30.1 per cent. These figures represent a decrease over the previous year's figures. This decrement is due to a change in the plan on 1 July, 1967 in which the Alberta Health Plan assumed the payment responsibility for the co-insurance charges for those pensioners holding an authorized hospitalization entitlement card.

Out-patient services were added to the out-of-province benefits available to all residents effective December 10, 1969. Prior to this time these benefits

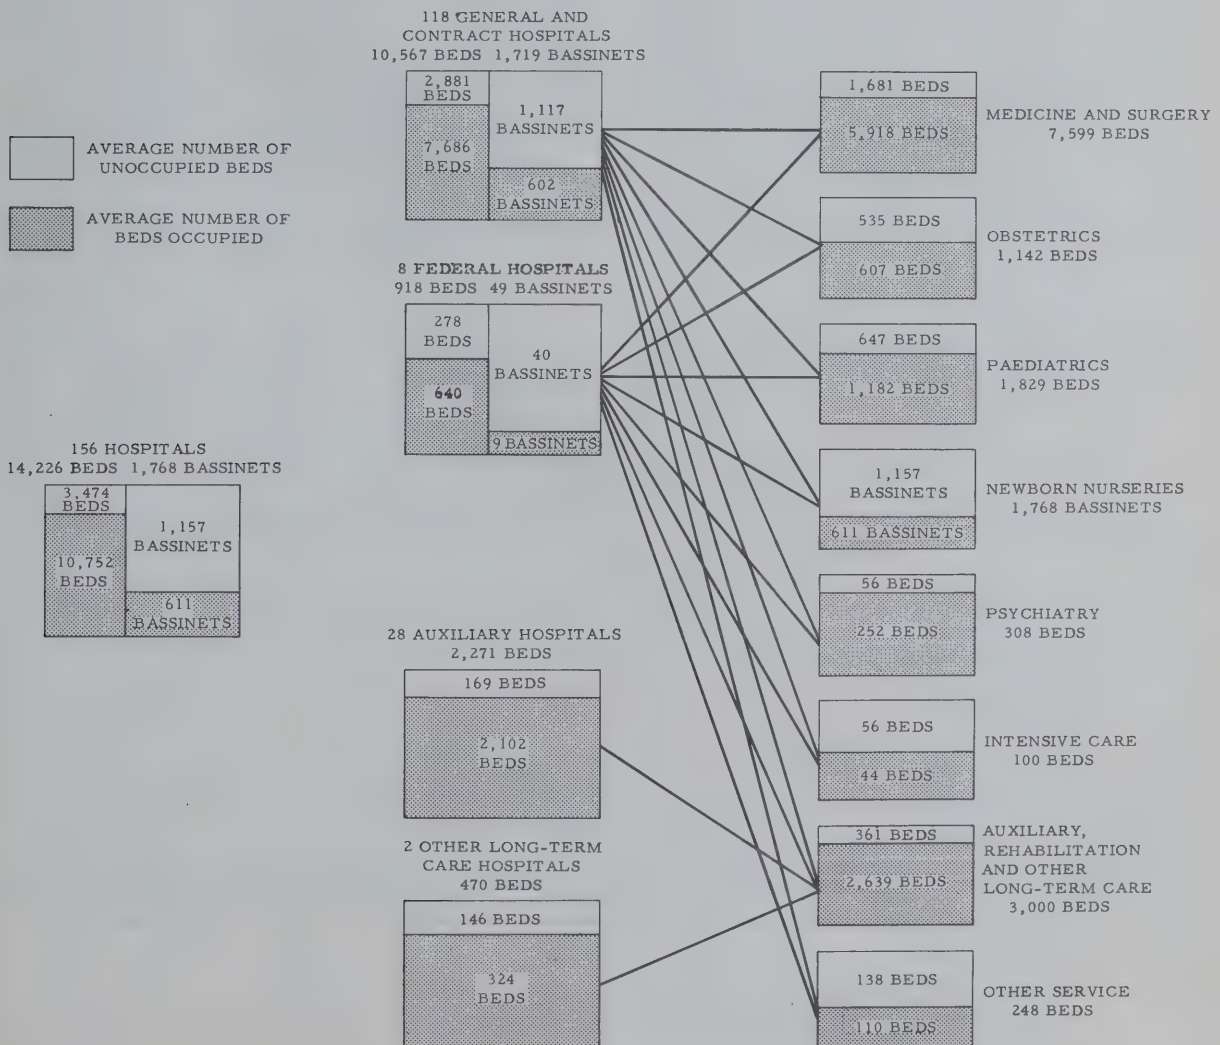

were only available to holders of valid medical cards issued by the Department of Social Development.

## IX. THIRD PARTY LIABILITY

Where as a result of a wrongful act or omission of another, a person suffers personal injury and becomes a beneficiary, the Province is entitled to recover all or part of the cost of hospitalization paid on behalf of an eligible resident.

Throughout 1969, 4,140 accident admissions were reported which resulted in 2,740 new claims for possible recovery. During this period 809 claims were recovered amounting to \$317,836. There were 383 claims which required solicitors fees. Collection fees were paid on 5.8 per cent of gross recoveries and amounts totalling \$26,173 were deducted from recoveries for this purpose.

HOSPITALS OPERATING IN ALBERTA AT 31 DECEMBER, 1969, THEIR RATED CAPACITY AND AVERAGE OCCUPANCY BY TYPE OF HOSPITAL AND TYPE OF SERVICE

## X. OUT-OF-PROVINCE HOSPITALIZATION BENEFITS

Alberta residents are entitled to hospitalization benefits for necessary in-patient hospitalization outside Alberta, almost without restriction as to circumstance. On 10 December, 1969, out-patient services were added to the out-of-province benefits available to all residents. Prior to that date they had been available only to the holders of valid medical cards issued by the Department of Social Development. Although technically it is an out-of-province hospital because it is located in Saskatchewan, the Lloydminster Hospital

is in a separate category. The hospital district consists of some Alberta and some Saskatchewan municipalities and Alberta residents are entitled to hospitalization benefits there on the same basis as if the hospital were located in Alberta. For this reason, data in respect to hospitalization in the Lloydminster Hospital is reported separately.

Data for out-of-province hospitalization is based on claims processed during the year 1969.

Table 27 provides a comparison of the volume of out-of-province hospitalization and the amount paid for each of the past five years. Hospitalization of adults and children increased by three per cent over the preceding year, about the same rate as the increase in 1968 over 1967. There were fewer newborn than in the preceding year. The average stay in hospital is relatively unchanged.

The amount paid for out-of-province hospitalization of adults and children increased over 1968 by \$169,847, or 20 per cent. This was greater than the increase for 1968 over 1967 of 17.5 per cent. The major portion of the increase, (\$134,900) is due to increases in the approved rates charged by hospitals in the other provinces of Canada.

Table 29 shows the geographic distribution of the out-of-province hospitalization of adults and children together with the average amount paid per patient day in 1969 as compared to 1968. The geographic distribution in 1969 shows little change from 1968. Hospitalization in British Columbia comprised about 43 per cent of the total, followed by Saskatchewan (15 per cent), Ontario (13 per cent) and Manitoba (7 per cent). Hospitalization in the United States (including Alaska and Hawaii) amounted to about 10 per cent of the total.

For hospitalization in the other provinces and in the Territories, the Plan pays the actual charges at the standard ward level, minus the co-insurance charges at the level applicable in Alberta hospitals. However,

TABLE 26

Year of Recovery	Number of Claims Paid	Total Net Recovery
1961	587	\$140,948
1962	610	155,312

TOTAL PAID	\$649,394.35	\$608,802.55	\$731,551.93	\$857,921.91	\$1,026,344.44
Average Payment Per Patient Day:					
Adults and Children	\$21.15	\$22.95	\$25.24	\$28.83	\$33.18
Newborn	5.48	5.76	5.39	5.75	5.93

\* Total amounts paid as shown in these tables do not include adjustments, extra payments or refunds except in cases of refunds where account was paid and refunded in total during the current year in which case the patient has been deleted. Total adjustments during 1969 amounted to a credit of \$2,489.37

for hospitalization outside of Canada, the level of payment is restricted to the level charged to non-eligible patients minus co-insurance charges. Thus, within Canada, the average payment per patient day reflects the level of the charges in the hospitals concerned, and the patient's responsibility is uniform in all cases. However, hospital rates in the United States generally are higher than in Canada. The level of remuneration

by the Plan does not reflect the rates charged by the hospital, and the patient is responsible for the amount by which the charges exceed the level of reimbursement.

Table 28 shows the volume of insured in-patient hospitalization outside Alberta by the nature of the absence. The relative significance of the categories of absence is unchanged from 1968 and the variations between the 1968 and 1969 percentage distributions are less than 2 per cent.

Details of in-patient hospitalization benefits in the Lloydminster Hospital are shown in Table 30.

TABLE 28: OUT-OF-PROVINCE HOSPITALIZATION, 1969, BY NATURE OF ABSENCE

Nature of Absence	Number		Percentage Distribution	
	Cases	Patient Days	Cases	Patient Days

(1) Does not include traction or fixation (of bones) without reduction of fracture nor operations assisting obstetrical delivery.  
(2) Includes data for approved general hospitals, contract and federal hospitals in Alberta and Alberta residents in the Lloydminster (Saskatchewan) Hospital.

Owing to changes in classifications introduced in 1969 some groups were changed considerably from previous years. In these cases, the totals in the above table for 1967 and 1968 have been adjusted to the extent possible.

TABLE 34: VOLUME AND FREQUENCY OF HOSPITAL CARE OF PATIENTS DURING 1969 BY SEX AND AGE

(1) Includes data for patients in the chronic unit of Colonel Belcher Hospital, Calgary, the auxiliary unit of the Cardston Municipal Hospital and the Glenrose Provincial General Hospital, Edmonton.

## XI. GROSS EXPENDITURES— OPERATING COSTS

A brief historical summary of the increase in gross expenditures and salaries of approved general hospitals is represented in Table 35. Tables 36, 37 and 38 present a comparative analysis of gross expenditures of approved general and auxiliary hospitals by type of expenditure in total and in patient day ratios.

There has been a general upward trend in recent years of all expenditures. Tables 37 and 38 indicate a per capita increase in total expenditures for approved general hospitals of 9.8 per cent. Approved auxiliary hospitals per capita increase was 47.7 per cent.

The largest single cost item is salaries. This item amounts to 67.5 per cent of total expenditures for approved general hospitals and 64.8 per cent for approved auxiliary hospitals. The cost per patient day for approved general hospitals rose 3.79, an increase of 13.3 per cent from 1968. Approved auxiliary hospitals cost per patient day rose 4.93, an increase of 51.0 per cent from 1968.

## GENERAL HOSPITALS

TABLE 35  
INCREASE IN GROSS EXPENDITURES  
OF GENERAL HOSPITALS, 1959 - 1969

TOTAL GROSS EXPENDITURES			
Year	Amount	Per Cent Yearly Increase	Per Cent Increase From 1959

Group 4, 1968, Excludes \$2,594,050 Salaries And Wages And 1,127,871 Paid Hours For The Glenrose Provincial General Hospital.

## XII. PERSONNEL

Table 39 shows the number of personnel employed by approved general and auxiliary hospitals as at 31 December, 1969, by principal types of positions as reported by hospitals. Additional information relative to individual hospitals are given in the Appendix by Department (see index).

Table 40 presents a summary of the quantity of hospital staff employed during 1969 in terms of paid hours.

One difference between the 1968 and 1969 tables is that the Edmonton Glenrose Provincial General Hospital in 1968 was included with the general hospitals, whereas, in 1969 it was included with the Long Term Care Hospitals. The preceding comparisons are on the basis of this hospital being in the Long Term Care Hospitals group, with 1968 reported statistics adjusted accordingly.

The number of medical interns and residents was greater by 31 than at the end of 1968, an increase of 9.6 per cent.

\*Includes Two Contract Hospitals.  
 \*\*Percentage Less Than 0.05%.

Full-time graduate nurses on the staffs of general hospitals increased by 225, student nurses decreased by 67, certified nursing aides decreased by 109 and orderlies decreased by 135, over the numbers reported at the end of the preceding year.

There were also increases in the following classes of trained personnel employed on a full-time basis in general hospitals: Dietitians (2), Registered Medical Record Librarians (2), Registered Laboratory Technologists (30), Registered Radiology Technicians (25), Occupational Therapists and Physiotherapists (17). The number of combined X-ray and Laboratory Technicians was unchanged.

In the long term care hospitals the number of full-time graduate nurses increased by 13 over the preceding year and the number of full-time certified nursing aides decreased by 26 and the number of full-time orderlies decreased by 13.

Total paid hours of the staffs of general hospitals in 1969 was less than 1968 by .8 per cent. However, the ratio of 13.5 paid hours of hospital staff for every day of in-patient care for adults and children in 1969 is lower than in 1968 by .76 hours.

### XIII. LABORATORY SERVICES

Table 41 presents a summary of the volume of laboratory services in hospitals during each of the past five years. Similar to last year's report, the volume is expressed in terms of units compiled on the basis of the 1960 edition of "Schedule of Unit Values for Clinical Laboratory Procedures", issued by the Do-

minion Bureau of Statistics. The unit of measurement is basically 10 minutes of time with 7 minutes being allowed for technical procedures and 3 minutes for preparatory services.

During 1969 there was a 17.5 per cent increase in laboratory work completed. The volume of laboratory work increased the greatest amount in out-patient services (8.7 per cent), whereas the volume of work for in-patients increased by .1 per cent. Additional information for individual hospitals is supplied in Tables 49 and 50 of the Appendix.

### XIV. RADIOLOGICAL SERVICES

Table 42 indicates a historical qualitative summary of the diagnostic radiological services in general hospitals. Additional information for individual hospitals is supplied in Table 48. In 1969 the percentage of patients having routine chest x-rays decreased but at a much smaller rate than has been the usual case in the last five years. There was a slight net gain in number of chest x-rays taken during the year.

### XV. OBSTETRICAL SERVICES

A summary of the volume of obstetrical services in general hospitals during each of the past five years is given in Table 43. Based on the Dominion Bureau of Statistics estimates, the number of females between the ages of 15 and 45, the number of obstetrical deliveries in the general hospitals in Alberta was 92.4 per 1,000 females of this age group, compared to 95.1

For Out-Patients	714,580	863,884	1,110,623	1,453,189	1,676,698
Units Per In-Patient	29.2	32.9	42.0	50.0	51.0
Units Per Patient Day	3.2	3.8	4.7	5.6	5.7

\* Includes Two Contract Hospitals.

\*\* Includes: routine staff health examinations, hospital sanitation control, quality control, calibration standards and research.

per 1,000 in 1968. In practically all parts of the Province, the hospital facilities available for obstetrical and newborn greatly exceeds the demand. Additional information concerning individual hospitals experience for 1969 will be found in Table 51 of the Appendix.

## XVI. OUT-PATIENT SERVICES

Table 44 contains a summary of select information concerning services provided to out-patients by

general hospitals in various size groups. Additional information concerning individual hospitals experience for 1969 will be found in Tables 48, 49, 50, 51, 51A and 59. Gross earnings for out-patient services increased by 8.5 per cent. This was largely due to an increase in services performed. The number of X-ray examinations has decreased by 356,549 from 1968 and the units of laboratory work performed has increased by 159,120 (11.8 per cent) over 1968.

TABLE 42: WORKLOAD OF RADIOLOGY IN GENERAL HOSPITALS IN VOLUME OF SERVICES PROVIDED

	1965	1966	1967	1968	1969
<u>In-Patient Examinations</u>					
Routine Chest X-Rays	26,028	19,989	14,010	14,335	16,748
Other X-Ray Examinations	248,172	269,710	295,641	321,942	331,149
Per Cent Of Patients Having Routine Chest X-Rays	9.4	7.1	4.8	4.6	5.3
<u>Out-Patient Examinations</u>	151,740	173,638	210,554	265,994	286,438
<u>Medical Interpretation Of X-Ray Examinations</u>					
By Radiologist	328,741*	356,248*	363,064*	435,028*	573,998
By Others	24,227*	25,971*	26,776*	27,720*	42,286
Per Cent Of Interpretations Made By Radiologists	94.3	94.3	94.2	94.8	88.3

\* In years prior to 1969 interpretations were reported on the basis of films read and, therefore, have been adjusted by dividing the number of films read by the number of films used per examination. The above figures for years prior to 1969 do not include those films referred out.

TABLE 43: OBSTETRICAL SERVICES IN GENERAL AND CONTRACT HOSPITALS

	1965	1966	1967	1968	1969
